I.6.9 Beverage obtained by dealcoholisation of wine

Beverage obtained by dealcoholisation of wine is a beverage:

- obtained exclusively from wine or special wine as described in the International Code of oenological practices of the OIV;
- which has undergone exclusively specific for this type of products treatments in accordance with the OIV International Code of Oenological practices, in particular a dealcoholisation;
- and with an alcoholic strength by volume below 0,5% vol..

*NOTE
This definition does not preclude the denomination “dealcoholised wine” to be used in case the legislation of Member States allows it.
