

### **II.2.1.10 Treatment with silicon dioxide**

**Classification**

- Colloidal solution of silicon dioxide: Processing aid

**Definition :**

Addition to must of a colloidal solution of silicon dioxide coupled with the addition of a gelatin solution.

**Objective :**

To achieve the flocculation of the gelatin with a view to clarification.

**Prescriptions :**

- a) The product is added to the must.
- b) Preliminary tests are necessary to determine optimal doses of colloidal silicon dioxide and of gelatin.
- c) The products added shall comply with the prescriptions of the International Oenological Codex.

**Recommendation of OIV:**
