

### **3.1.9 Medals and distinctions**

The indication relating to medals or distinctions depends on whether:

- they were attributed in a non-restricted competition, according to the standards concordant with the criteria defined by the OIV, and on a homogenous and defined quantity of wine having the entitlement to an appellation of origin or a geographical indication,
- documentary proof exists,
- the label shows the volume of the batch of wine, subject of the distinction, or an official control number.
