RESOLUTION ŒNO 4/93

LEAD LEVEL

THE GENERAL ASSEMBLY,

BASED ON THE PROPOSAL of Commission II, “ Enology ”,

TAKING INTO ACCOUNT THE WORK of the Sub- Commission on Methods of Analysis and the opinion of the Group of Experts, “Nutrition and Health ”, considering that lead is an undesirable element and that the improvement obtained in wine technology has lead to a net decrease in the général level of lead in wines,

DECIDES to reduce the maximum level of lead in wines, as referenced in Annex C of the Com pendium of International Methods of Analysis of Wines and Musts, to 250 micrograms per liter ($\mu g/L$)

Certified in conformity San Francisco, 3th September 1993
The Director General of the OIV
Secretary of the General Assembly
Robert TINLOT
