2.4 Net contents

The net contents shall be declared in the metric system (International System of units (SI)).

The declaration of net contents represents the quantity at the time of packaging and is subject to enforcement by reference to an average system of quantity control.

It is recommended that the enforced average system of quantity control is compatible with the requirements set by the International Recommendation OIML R 87 “Quantity of product in pre-packages” and its further updates of the International Organisation for Legal Metrology.
